ASSORISORSE

Assorisorse in brief

Assorisorse – *Natural Resources and Sustainable Energy* is the Confindustria Association derived from Assomineraria - Italian Mining Association:

- ❖ **Assorisorse** is part of Confindustria and a member of the **UN Global Compact**.
- ❖ **about 100 companies** committed to enhancing natural resources and intellectual skills through technological innovation and the circular economy that aim to decarbonize industrial processes and achieve environmental, economic and social sustainability;
- ❖ **Assorisorse** companies develop highly specialized technologies that are recognized worldwide for their excellence and operational capacity. The objective is to foster the relationship between associated maximizing the value creation of the entire Italian supply chain in the energy sector.

Assorisorse organization

Assorisorse is organized in 4 main sectors:

Working Groups
Focused on Energy Transition

- ❖ **Carbon Capture Utilization and Storage/CCUS** – An essential contribution towards achievement of energy transition targets
- ❖ **Circular Economy – Waste to X: The Energy of the third millennium**
- ❖ **Energy Supply Chain Sustainability** – Assorisorse and sustainability for a new business culture
- ❖ **Hydrogen value chain** – Assessment on H2 development scenario
- ❖ **Methane Emissions** – Zeroing in methane emissions is key to a sustainable future
- ❖ **Recommissioning & Wind Offshore**
- ❖ **Subsidized Finance and Development**
- ❖ **Zero km natural resources** – The essential role of domestic CH4 for a sustainable energy transition
- ❖ **Critical Raw Materials** - To achieving zero emissions targets in the coming decades

Assorisorse and energy transition - Major event 2022

Critical Materials and Circular Economy

- **Hydrogen**
- **Methane Emissions**

- **Methane emissions**

- **Hydrogen Business case**
